Experience

Lowe's India — Bengaluru, India
Software Engineer — *Dec 2024 - Present*

- Developed event-driven microservices using **Spring Boot, WebFlux, Kafka, NodeJs, MongoDB, PostgreSQL** for Lowe's Cost Guide platform supporting multi-billion record datasets.
- Built Kafka-based ingestion and transformation pipelines utilizing **Avro schemas** for high-throughput supplier cost-change processing across multiple enterprise systems.
- Reduced critical analysis API latency from **25 seconds to 2 seconds** through MongoDB query optimization using partial filter expressions and compound indexing strategies.
- Implemented recommendation workflows using commodity trends, forex rates, tariffs, regional pricing, and business rules to generate supplier negotiation insights.
- Implemented HashiCorp Vault, configured **Grafana** dashboards, contributed to MongoDB-to-PostgreSQL migration, and collaborated with architects and product teams.

Infosys — Pune, India
Digital Specialist Engineer — *Jul 2022 - Nov 2024*

- Developed and enhanced enterprise telecom applications for **Verizon** using **Spring Boot, React, Redux Toolkit, NodeJs, React Query, and SQL Server** within a distributed microservice architecture.
- Improved application response time by **40%** through performance profiling, API optimization, elimination of redundant service calls, and query tuning validated using **JMeter**.
- Built and maintained REST APIs and responsive frontend components, collaborating with cross-functional Agile teams to deliver production-ready features and improve application responsiveness.

Education

Bachelor of Engineering (Computer Engineering) — **CGPA - 9.76/10**
K. K. Wagh Institute of Engineering Education and Research (Pune University) — *Aug 2018 - Jun 2022*

Skills

Languages: Java, Python, JavaScript, TypeScript
Backend: Spring Boot, Spring WebFlux, Spring Cloud, REST APIs, Hibernate/JPA, Kafka, JMS, Microservices, NodeJs
Frontend: React, Redux Toolkit, React Query
Databases: PostgreSQL, MongoDB, Cassandra, MySQL, Microsoft SQL Server
Cloud/Tools: Kubernetes, Docker, Rancher, Vault, Git, GitHub, Bitbucket, Jira
Testing/Monitoring: JUnit, Mockito, SonarQube, Grafana, Prometheus, Kibana, Instana, Swagger
Currently Exploring: Machine Learning, LLM Applications, AI Engineering

Projects

AmazeKart | *GitHub* | *Demo* — React, Springboot, Redux, Mysql, JWT, react-query, Tailwind

- Developed a full-stack e-commerce platform using **React, Spring Boot, Spring Security, JWT, Hibernate, MySQL, React Query, and Tailwind CSS**.
- Integrated **Razorpay** payment gateway, implemented secure authentication and authorization, and documented REST APIs using **Swagger/OpenAPI**.

Sketchful | *GitHub* | *Demo* — React, Springboot, Websockets, Bootstrap

- Built a real-time multiplayer drawing and collaboration platform using **Spring Boot, React, and WebSockets** with live chat and synchronized gameplay.

Awards & Achievements

Recognized with the **Focus on Customer Award** at Lowe's for successfully delivering and rolling out **Cost Guide V1**.

Solved over **250+ Data Structures and Algorithms** problems on **LeetCode**, earning multiple platform badges.
